Summary

Full Stack Developer with 3+ years of experience building scalable web applications using React.js, Next.js, Node.js, and PHP Laravel. Proven track record of improving performance, reducing bugs, and delivering production-ready features across fintech, property management, and election management domains.

Experience

Full Stack Developer

MOCHA Technology

Mumbai

Dec 2024 – Present

- Developed and integrated responsive frontend applications using **React.js**, **CoreUI**, **Next.js**, and **Tailwind CSS**, improving user engagement by **20%**.
- Integrated **Microsoft Graph API** to build a meeting scheduling system with full calendar and event management capabilities.
- Built and maintained **RESTful APIs** using **PHP Laravel** with **MySQL**, implemented unit testing for API reliability and developed asynchronous job queues for bulk data processing.
- Key products: [Mocha Accounting](#) and [Mocha Manage](#) — accounting and property management platforms supporting financial operations, bulk uploads, report generation, and click-to-print functionality.

Full Stack Developer

ATTPL Group

Remote

Mar 2024 – Nov 2024

- Developed and deployed a scalable full-stack application using **Node.js**, **Express.js**, **React.js**, and **MySQL** with Sequelize ORM, reducing API response time by **30%** and achieving **99.9% uptime** via **Docker** and **AWS S3**.
- Integrated responsive frontend components with backend APIs; implemented unit testing with **95% test coverage**, reducing production bugs by **40%**.
- Key product: [Election Management System](#) — eliminated **78%** of user-generated errors through input validation, ensured full responsiveness across mobile, tablet, and desktop.

Full Stack Developer

Newton School

Remote

Dec 2022 – Feb 2024

- Built full-stack web applications with **Next.js**, **React**, **HTML5**, **CSS**, and **JavaScript** on the frontend, and **Node.js**, **Express.js**, and **MongoDB** on the backend.
- Delivered a [Reddit-Clone](#) using **Next.js**, **Firebase v9**, **Chakra UI**, **TypeScript**, and **Recoil** — drove **20% monthly growth** in user interactions; maintained **99.9% uptime** with secure, personalized profiles and fast search.

Test Engineer

Quality Kiosk

Remote

Jun 2021 – Jul 2022

- Monitored enterprise systems using **Dynatrace**, identifying and resolving **90%** of issues within 24 hours; prepared detailed incident reports and summaries for clients.
- Facilitated cross-team communication through bi-weekly check-ins, maintaining an intra-team response time of under **1 hour** to ensure smooth project operations.

Education

Terna Engineering College

B.E in Electronics & Telecommunication Engineering, Mumbai

2016 – 2020

Technologies

Languages: JavaScript, TypeScript, Java, PHP
